

Hi,

I hope you are doing great!

I'm Aditya Tathe, currently a final year engineering student at Bharati Vidyapeeth College of Engineering, Navi Mumbai (Mumbai University) with a specialisation in Computer engineering.

I have an excellent understanding of Data Cleaning, Data Visualisation, and problem-solving skills. I am proficient with data analysing tools such as PowerBI, Tableau, Excel and have deep knowledge of Python and SQL. Also, I had completed the IBM Data Science Professional course from Coursera and worked on various ML related projects.

I have attached my resume for the same.

I would request you to consider me for an interview for the given role. If you're not currently hiring for this role, I would be glad if you can connect me with a suitable recruiter. Feel free to use any of the below contact details.

Thanks and Regards

Aditya Tathe
